PROFESSIONAL SUMMARY

I am a dedicated software developer with skills in PHP, Python, HTML, CSS, JavaScript, and Bash scripting. I can create strong back-end systems and user-friendly interfaces. I am good at solving problems and learning new technologies, which helps me find creative solutions that meet business needs. I also have experience teaching and explaining technical ideas to different people. I am looking for opportunities to contribute and grow in the tech industry.

WORK HISTORY

Software Developer (contract) , 10/2024 - 12/2024

Hacklift NG

- Created software systems based on client needs and specifications with clean and efficient code using nextjs and fastapi.
- Conduct tests to ensure the software works correctly and is free of bugs.
- Identified and resolved software errors and performance problems.
- Worked with other developers and project managers to meet project goals.
- Collect and understand user requirements to improve software functionality.
- Used user feedback to make improvements and updates to the software.
- Learn and apply new technologies as needed for projects like fintech api integration.

Frontend Developer (part time), 11/2024

STITCHITIN

- Use HTML, CSS, and JavaScript and frameworks like react,react native to build responsive web pages.
- Ensure websites load quickly and run efficiently.
- Regularly update and improve existing web applications.
- Develop features that work well on mobile devices.
- Work with back-end developers to integrate systems and improve usability.
- Collect feedback from users to enhance functionality.
- Create guides and requirement documents for users and developers.
- Identify and fix errors in the code to ensure smooth operation.

Python/Django Tutor, 02/2022 - 04/2024

Tekhubng

- Instruct students on the fundamentals and advanced concepts of Python programming and the Django web framework.
- Create and update lesson plans, assignments, and projects to enhance the learning experience.
- Facilitate engaging classes that encourage student participation and hands-on practice.
- Offer assistance to students with coding challenges, logic implementations, and debugging their projects.
- Evaluate student performance through quizzes, assignments, and project submissions to ensure understanding.
- Help students apply their knowledge by guiding them through real-world projects using Python and Django.
- Provide students with additional learning materials, such as scripts, documentation, and online resources.
- Foster a collaborative learning environment where students can work together on coding exercises and projects.
- Offer career advice and mentorship to students interested in pursuing a career in software development.

Software Developer INTERN, 02/2022 – 02/2023

Hacklift

- Helped in designing, developing, and testing software applications under the guidance of experienced developers.
- Write clean, maintainable, and efficient code for various projects.
- Identify and fix bugs in existing applications to improve functionality.
- Participate in Code review sessions to provide and receive constructive feedback.
- Develop technical documentation to support software applications and processes.
- Collaborate with other team members on projects, contributing ideas and solutions.
- Gained knowledge of industry best practices, including Agile methodologies and user-centered design principles.
- Perform tests on software applications to ensure quality, usability, and reliability.

SKILLS

- Proficiency in HTML, CSS, and JavaScript
- Experience with Front-End Frameworks: React, React Native, and Next.js
- Experience with Python and Python Frameworks: Django, Flask, FastAPI, and Django REST Framework
- Strong Problem-Solving Skills: Excellent analytical abilities and attention to detail
- Ability to Work in a Fast-Paced Environment: Capable of managing multiple tasks and communicating effectively
- Testing and Debugging Skills: Proficient in identifying and resolving software issues
- Proficiency in SQL: Strong understanding of database management and querying
- Understanding of Version Control Systems: Familiarity with Git and Bash scripting

EDUCATION

HIGHER NATIONAL DIPLOMA (HND) : Computer Science, 01/2010 - 02/2016
INSTITUTE OF MANAGEMENT AND TECHNOLOGY (IMT)- Enugu Nigeria

LANGUAGES

English

Fluent
